PROFESSIONAL SUMMARY

Dedicated Full-Stack Developer with 1 year of hands-on experience in building, deploying, and maintaining real-time production projects end-to-end. Skilled in modern frontend, backend, mobile app development, and Linux-based environments. Capable of handling complete project lifecycles independently—from requirements gathering, development, integration (including Razorpay), deployment, server configuration, and continuous maintenance. Strong problem-solving skills with a commitment to clean, optimized, and scalable code, and able to accelerate development and decision-making with the help of AI tools for productivity and smart problem-solving.

WORK EXPERIENCE

1.Full-Stack Developer | Company: Zeroxpoint | Duration: 1 Year
Independently handled end-to-end development for multiple real-time projects, building both web and mobile applications from scratch—including frontend, backend, database, deployment, and ongoing maintenance. Integrated Razorpay payments, managed production servers using Linux and Nginx, and deployed applications on Hostinger, Vercel, and AWS. Leveraged AI tools such as ChatGPT, Perplexity, Windsurf, and Cursor to accelerate development, debugging, and decision-making.

PROJECTS

- 1.Employee Monitoring System Developed a full employee monitoring solution on Ubuntu using Python and SQL. The system captures and stores screenshots, camera images, terminal commands, software usage with timing data, and input device activity. Implemented automated logging, data processing, and secure storage to track real-time user activity efficiently across the system.
- 2.Zeroxpoint
 - a.Xeroxshop partner website portal(Nextjs)
 - b.Admin Portal (Nextjs)
 - c.Qeerinto Android Mobile App (React Native (Expo))
 - d.zeroxpoint Backend Server (Nestjs)
- 3.Basic Bank Product Recommendation System (Python)
- 4.Basic Super Market Sales Analysis (Python)
- 5.Library Management (Basic)

HOBBIES

- Gaming and writing immersive game-based stories
- Creating developmental and productivity improvement plans
- Researching new technologies and modern developer tools
- Creative writing and idea development for gaming narratives
- Continuously learning and experimenting with AI-powered tools to optimize development workflows and build faster, more efficient solutions

EDUCATION

- 2022 - 2025
- CAVALIER INSTITUTIONS
- BANGALORE NORTH UNIVERSITY
- Bachelor of Computer Applications
 - CGPA : 8.75

SKILLS

- Frontend & Mobile Development
- Basic HTML & CSS
 - TailwindCSS / NativeWind
 - React Native (Expo)
 - Next.js
- Backend & Database
- Basic Python
 - Nest.js
 - PostgreSQL, psql
 - Prisma (ORM)

TOOLS & PLATFORMS

- GitHub
- ChatGPT, Perplexity
- Windsurf, Cursor
- Google Colab
- AWS
- Hostinger
- Vercel
- GoDaddy (Domains)
- Nginx
- Razorpay

TOOLS & PLATFORMS

- Fedora Linux
- Ubuntu
- AlmaLinux
